Important information you need to know

We may change the information contained in this document from time to time. We will communicate any changes to the way we pay medicines when we make these changes.

The Chronic Illness Benefit (CIB) is managed by the Discovery Health Medical Scheme Rules. The use of the benefits and programmes linked with the Chronic Illness Benefit are subject to specific conditions and rules. Members must make sure that they know these rules and conditions.

Any instructions or advice on medicines and the management of the member's condition are intended to add to, and not replace, the knowledge, expertise, skill and judgement of the member's doctor, pharmacist or other healthcare professional.

Discovery Health Medical Scheme reserves the right to change the benefit at any time.

Explanation of terms

Benefit year

A benefit year refers to the benefits a member is entitled to during a calendar year, that is to say 1 January to 31 December. This medicine list (formulary) and Chronic Drug Amounts are applicable for 2014 only.

Chronic Drug Amount (CDA)

The CDA is a monthly amount we pay up to for a medicine class. This applies to medicine that is not listed on the medicine list (formulary). The Chronic Drug Amount includes VAT and the dispensing fee.

Prescribed Minimum Benefit conditions (PMB conditions)

These are conditions which all medical schemes are required to cover by the Council for Medical Schemes for any setting according to clinical guidelines.

Chronic Disease List (CDL)

A defined list of chronic conditions we cover according to the Prescribed Minimum Benefits.

Medicine class

This describes medicines that have similar chemical structures or similar therapeutic effects.

Active ingredient

This is the main substance in a medicine that is responsible for the clinical action on a human body.

Chronic Illness Benefit 2014

The Prescribed Minimum Benefits (PMB) medicine list (for all plan types)
